Drawings

The drawings are objected to because some words are illegible (words in the block below “System Memory” in Figs. 1(b) and 9(b)) and some letters are missing in some words in Figs. 1(a), 2, 3(b), 4, 6, and 8(b) (e.g. “Stat Transitio n” appears to be “State Transition” on the left side of Fig. 3(b)). Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as “amended.” If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either “Replacement Sheet” or “New Sheet” pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Objections

Claim 22 is objected to because of the following informalities: claim 22 is depending from claim 20 that has the same limitations as claim 22. It appears that claim 22 should depend from claim 21. Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-23 and 25 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Mergard (US 6,327,508 B1).

Mergard discloses all the features of the claimed invention as shown in Figs. 3-5 and as taught in col. 1, line 59 - col. 2, line 22 and col. 4, line 37- col. 7, line 22.
